

Museum Fire Flood Projects

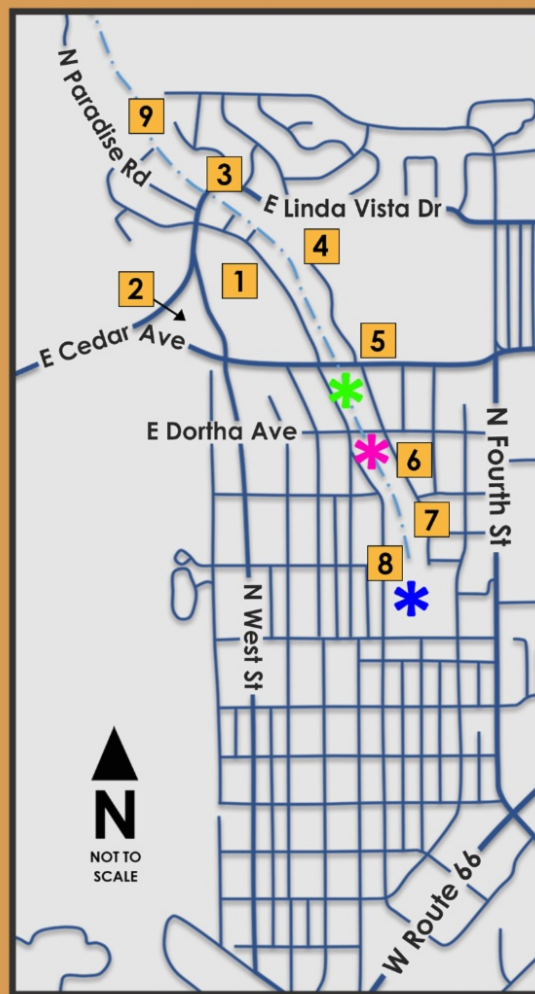

May 5, 2023

Welcome to the City of Flagstaff's Museum Fire Flood Projects eNews. Please email info@museumfloodprojects.com with any questions. These eNews will be released regularly to provide updates on all the City's Museum Fire Flood Projects.

FLOOD ASSESSMENT MAP AND TEMPORARY MITIGATION

As the 2023 monsoon season approaches, the City of Flagstaff would like to remind residents to review the Flood Risk Assessment map for the Spruce Wash produced by JE Fuller Hydrology and Geomorphology. The most updated version of this map can be found [here](#). The map models potential water flows after a rain event in which two inches of precipitation falls on the Museum Fire burn area in 45 minutes. The Flood Risk Assessment Map has been prepared utilizing the best available data. However, unpredictable changes may occur in the flow patterns and channels as watershed conditions constantly change due to levels of saturation, debris, sediment impacts, and other factors. These changes could impact the modeling results used to prepare the map.

No changes to temporary mitigations are recommended this year. Only outward-facing sandbags that are damaged need to be replaced. Sandbags that are not broken and are still in working order should not be replaced due to limited supply. Residents who are elderly or have a disability and need assistance with their sandbags can call the City's service request line at [928-213-2102](tel:928-213-2102). Materials for self-fill sandbags and a limited supply of pre-filled sandbags are available at 2625 N King St.

Key Flood Projects

1. Grandview Drive Reconstruction
2. "The Wedge" Detention Basin
3. Linda Vista Drive Crossing
4. Cedar Avenue to Linda Vista Drive Channel
5. Cedar Avenue Crossing
6. Arroyo Seco Drive to Dortha Avenue Channel
7. Arroyo Seco Drive Inlet
8. Killip Basins Inlet
9. Park Way Basins

Completed Key Flood Projects

- Spruce Wash Channel Improvements Project (Cedar Avenue to Dortha Avenue)
- Spruce Wash Channel Improvements Project (Dortha Avenue Inlet)
- Killip School Regional Detention Basins Project
