

Museum Fire Flood Projects

June 23, 2023

Welcome to the City of Flagstaff's Museum Fire Flood Projects eNews. Please email info@museumfloodprojects.com with any questions. These eNews will be released regularly to provide updates on all the City's Museum Fire Flood Projects.

PARK WAY SEDIMENT BASIN PROJECT SUBSTANTIALLY COMPLETE

An update from the Coconino County Flood Control District: The Park Way Sediment Basin project reached substantial completion on June 14 and is currently functional. Hydromulch – which will encourage vegetation regrowth and stabilization of the basin – was applied on June 23. As designed, the basin has the capacity to capture 1,313 cubic yards of sediment, which will support the function of downstream stormwater systems in Spruce Wash. Currently, the plan is to further support the Spruce Wash stormwater system through construction of subsequent basins upstream, but this additional construction will not take place before Fall 2023. We appreciate the continued patience offered by the residents of the Park Way area during the construction of this important piece of post-wildfire flood mitigation.

Key Flood Projects

1. Grandview Drive Reconstruction
2. "The Wedge" Detention Basin
3. Linda Vista Drive Crossing
4. Cedar Avenue to Linda Vista Drive Channel
5. Cedar Avenue Crossing
6. Arroyo Seco Drive to Dortha Avenue Channel
7. Arroyo Seco Drive Inlet
8. Killip Basins Inlet
9. Park Way Basins

Completed Key Flood Projects

- Spruce Wash Channel Improvements Project (Cedar Avenue to Dortha Avenue)
- Spruce Wash Channel Improvements Project (Dortha Avenue Inlet)
- Killip School Regional Detention Basins Project
