

Museum Fire Flood Projects

July 25, 2023

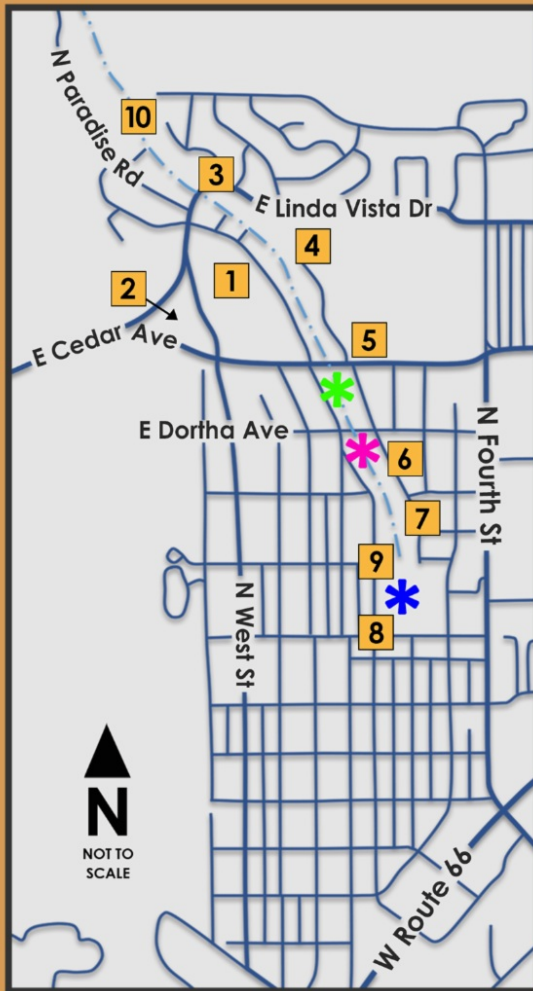

Welcome to the City of Flagstaff's Museum Fire Flood Projects eNews. Please email info@museumfloodprojects.com with any questions. These eNews will be released regularly to provide updates on all the City's Museum Fire Flood Projects.

STAGING TO BEGIN IN THE "WEDGE"

In preparation for upcoming Spruce Wash construction projects in the area, crews will begin clearing trees and vegetation in a portion of the area known as the "wedge". The "wedge" is the City-owned, triangle-shaped parcel bound by N West St, E Linda Vista Dr and E Cedar Ave. Once a portion of the trees and vegetation are removed, a fenced temporary construction yard will be set up to store equipment and materials for the upcoming projects. Crews will only be removing trees in an area within the footprint of the future Wedge Detention Basin Project. The public is asked to keep out of the fenced construction yard and be aware of construction activity.

ADDITIONAL INFORMATION

Design for the upcoming Spruce Wash Improvements is underway. The City will be hosting a public meeting to review the preliminary plans and discuss this with the community in greater detail. Follow-up notifications will be released prior to the public meeting and the start of construction. You can read more about the planned projects at museumfloodprojects.com/proposition-441.
